

GbxServerResponse

```
classDiagram
    GbxCallback --|> GbxServerResponse
    GbxResponse --|> GbxServerResponse
```

The diagram illustrates a class hierarchy. At the top is the class 'GbxServerResponse'. Below it are two classes, 'GbxCallback' on the left and 'GbxResponse' on the right. A horizontal line connects the two bottom classes, with a vertical line extending upwards from its center to an arrowhead pointing at the bottom of the 'GbxServerResponse' box. This indicates that both 'GbxCallback' and 'GbxResponse' inherit from 'GbxServerResponse'.
